Luma Technologies

Low Profile Switching Solutions

- Deadfront, Sunlight Readable Lighting
- Long Life, High-performance LED's
- Solid-state Hall Effect Switch Elements
- Sealed against Water, Sand & Dust
- Conventional or NVIS compatible

Luma's 2000 Series Low Profile switching system delivers the performance and reliability of solid-state Hall Effect switching and LED illumination neatly packaged into a low profile package less than .500" thick. Caps can be split to combine sunlight readable status bars and indicia as well as traditional IPL visible characters with no crosstalk between the segments.
